Just received the official news of my recent appointment to chair a special redistricting subcommittee entrusted with leading hearings across party lines.

My thanks to Chairman Edwin Jones and the House leadership for entrusting me with this important task. We have a lot of work in front of us. My aim is to ensure that Texans across the state have an opportunity to be part of the redistricting process. We are proposing an exhaustive itinerary of hearings and I look forward to diving into the process as we seek public input.
